

PRINTABLE
WOODLAND MASKS
FOR LITTLES
(and grown-ups too;)

You'll need:

- 8.5" x 11" card stock for printer (1 per mask)
- scissors
- hobby knife (like X-acto®)
- cutting mat
- jumbo craft sticks (6"- 8", 1 per mask)
- super glue

How to:

1. Print out masks on 8.5" x 11" card stock.
2. Cut them out with scissors or a hobby knife. ATTN: hobby knives should only be handled by adults and used on top of a cutting mat to avoid damaging the surface beneath.
3. Use hobby knife to cut out eye holes.
4. Use super glue to attach a jumbo craft stick to the back of the mask. The top of the craft stick should be about 2" from the bottom of the mask.
5. Enjoy the woodland magic!
